

Aviation Maintenance Technology (AMT 65) Program

4 Week course

Accelerated Nine (9) Day course available

Often called an "A&P" (Airframe and Powerplant), an Aviation Maintenance Technician (AMT) is responsible for maintaining aircraft in a safe condition for flight. Employment opportunities are plentiful, and most often found in the Aviation Industry. However, A&Ps are also employed in other related industries.

Course Information

The Aviation Maintenance Technology Program provides educational activities and experiences that are designed to enhance your existing maintenance knowledge and skills needed for career advancement in the areas of General, Airframe, and/or Powerplant.

Register for the course

A) If you are planning on using Tuition Assistance (TA) our Admissions department can walk you through the process, prior to registering for the program.

B) **High school or GED transcript, ERB or DD-214 required prior to the registration deadline.**

Program Required Materials:

- * Textbooks
- * Calculator, *with square-root function*
- * *Black Fine-tip dry erase marker*
- * **Yellow** Highlighter **ONLY!**

Mission Statement

To provide quality education and motivation to all students, encouraging the development of technical skills, professional values and knowledge pertinent to their chosen career field.

If FAA certification is desired;

§65.71 Eligibility requirements

(a) To be eligible for a mechanic certificate and associated ratings, a person must —

- (1) Be at least 18 years of age;
- (2) Be able to read, write, speak, and understand the English language.

§65.77 Experience Requirements

Each applicant for a mechanic certificate or rating must present either an appropriate graduation certificate of completion from a certified aviation maintenance technician school or documentary evidence, satisfactory to the Administrator, of -

- A) At least 18 months practical experience with procedures, practices, materials, tools, machine tools, and equipment generally used in constructing, maintaining, or altering airframes, or powerplants appropriate to the rating sought, **OR**
- B) At least 30 months of practical experience concurrently performing the duties appropriate to both the airframe and powerplant ratings.

DOCUMENTATION FAA NEEDS:

You must provide at least one of the following

- A) “Certified True Copy” of Enlisted Records Brief (ERB)
- B) “Certified True Copy” of discharge papers (DD214)
- C) Letter attesting to your experience, signed by an

Visit North Central Institute (NCI)

Bring both of your original Rating Applications (FAA Authorization 8610-2) to NCI when you register.

During the program, you will have the opportunity to take the FAA written exams, which are done by testing on Computer Assisting Testing Service (CATS) at a cost to the student of \$150 per test. CATS are administered here at NCI and you will receive instant results. CATS tests must be paid in full prior to taking the CATS test. The written exams are not mandatory, but will be needed if seeking FAA certification (you will not be able to take your Oral & Practical exams without them.) **DO NOT** lose your CATS test results.

FAA Certification

After you have completed the course and passed all required FAA written exams, the AMT department can assist you in scheduling your Oral & Practical exam with an FAA Designated Mechanic Examiner (DME). Fees are \$1,000 for all 3 subject areas (General \$200, Airframe \$400, and Powerplant \$400).
